REASONS FOR ALLOWANCE

1. The following is an Examiner's Statement of Reasons for Allowance:

Claims 1-22 are allowable over the prior art of record.

The examiner has found that the prior art of record shows similar limitations but not in the same scope, arrangement, or combination of an ad hoc (a short-range wireless LAN) network for dynamic process assignment among a plurality of devices, comprising: a first device, wherein the first device functions as a resource manager, and further wherein the first device includes a list of available resources for each device of the plurality of devices; and a second device, wherein the second device requests the use of a desired resource, wherein, the first device, in response to the request from the second device identifies an available resource associated with one of the plurality of devices for use by the second device as the desired resource as set forth in the independent claims 1 and 8. Claims 14 and 17 are merely a method of operations for the apparatus defined in the apparatus claims 1 and 8.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
